2022 Employee Engagement & Core Theme Scores

This page includes the findings for your organisation and at Civil Service Level for the following core themes: employee engagement; my work, organisational objectives, my manager, my team, learning and development; inclusion and fair treatment; resources and workload; pay and benefits; leadership and managing change. A comparison between 2022 and 2021 scores is also included.

OFFICIAL SENSITIVE

Employee Engagement

Employee engagement is a workplace approach designed to ensure that employees are committed to their organisation's goals and values, and are motivated to contribute to organisational success. We use five questions (B47 - B51) in the People Survey to measure employee engagement, and combine all responses (positive, neutral and negative) into a summary index score to tell you where they sit on a scale of very disengaged (0%) through to very engaged (100%).

The Civil Service Employee Engagement Index (EEI) in 2022 is 65%. It decreased 1 percentage point compared to 2021 (median scores).

The graphs on the right present your EEI for 2022 and 2021.

The charts below, instead, displays the five questions that are used to calculate your EEI.

For each question, we've looked at the difference between the proportion of your employees who responded favourably (i.e. selected agree or strongly agree), and compared this to your 2021 results, your parent, and the Civil Service Benchmark.

If the difference is statistically significant, giving us confidence that the difference is not due to random chance, then an arrow will appear. If the arrow is

Employee Engagement Question Scores 2022 vs 2021

Question	Distribution	vs 2021	AGD Attorney General's Departments (Corporate Report)	Civil Service Benchmark 2022	Action Planning
B47. I am proud when I tell others I am part of my organisation	73% 20% 7%	+1	+1	+6 ^	Improve
B49. I feel a strong personal attachment to my organisation	65% 24% 12%	-2	+1	+14 ^	Improve
B48. I would recommend my organisation as a great place to work	64% 22% 14%	-1	+2	+3 ^	Improve
B50. My organisation inspires me to do the best in my job	64% 24% 12%	-1	+1	+8 ^	Improve
B51. My organisation motivates me to help it achieve its objectives	61% 26% 13%	+1	+1	+9 ^	Improve

Core Theme Scores

There are nine core theme scores within the Civil Service People Survey. Each theme measures a different dimension of employee experiences at work, which are known to have a strong relationship with engagement levels. Below, you'll find your overall theme score, plus the results for the individual questions underpinning each theme. Unlike the engagement score only positive responses count towards these scores.

Your percent positive theme score is shown in green and the centre of the chart. Your percent neutral is in grey, and percent negative in pink.

My Work

The Civil Service benchmark score for the My Work theme in 2022 is 79%, 1 percentage point lower compared to 2021.

The graph on the right shows the My Work score for your organisation, while the one below presents the scores for each of the theme questions (B01-B04).

Your percent positive theme score is shown in green and the centre of the chart. Your percent neutral is in grey, and percent negative in pink.

My Work Theme Score

My Work Question Scores 2022 vs 2021

Question	Distribution ▾	vs 2021	AGD Attorney General's Departments (Corporate Report)	Civil Service Benchmark 2022	Action Planning
B01. I am interested in my work		0	0	+3 ^	Improve
B02. I am sufficiently challenged by my work		-1	+1	+4 ^	Improve
B03. My work gives me a sense of personal accomplishment		-1	+1	+7 ^	Improve
B05. I have a choice in deciding how I do my work		0	0	-11 v	Improve
B04. I feel involved in the decisions that affect my work		-1	0	-5 v	Improve

Organisational Objectives & Purpose

The Civil Service benchmark score for the Organisational Objectives & Purpose theme in 2022 is 83%, 2 percentage points lower than in 2021.

The graph on the right shows the Organisational Objectives & Purpose score for your organisation, while the one below presents the scores for each of the theme questions (B06-B07).

Your percent positive theme score is shown in green and the centre of the chart. Your percent neutral is in grey, and percent negative in pink.

Organisational Objectives & Purpose Theme Score

Organisation Objectives & Purpose Question Scores 2022 vs 2021

2022 Discrimination, Bullying and Harassment Scores

This page includes the findings for your organisation and at Civil Service Level for the following topics: discrimination; types of discrimination experienced; bullying and harassment at work; grounds and nature of bullying and harassment; reporting of the incident and outcomes.

A comparison between 2022 and 2021 scores is also included.

OFFICIAL SENSITIVE

2022 Discrimination

In 2022, 7% of Civil Servants indicated that they have been discriminated against at work in the past 12 months. This remained unchanged compared to 2021.

The graphs in this section show the figures for the organisation or team you have selected.

E01. Discriminated against at work 2022

E01. Discriminated against at work (grouped) 2022 vs 2021

E02. Count of types of discrimination experienced (multiple choice allowed) 2022 vs 2021. Answer options with fewer than 10 responses will be suppressed to protect the anonymity of small groups of individuals.

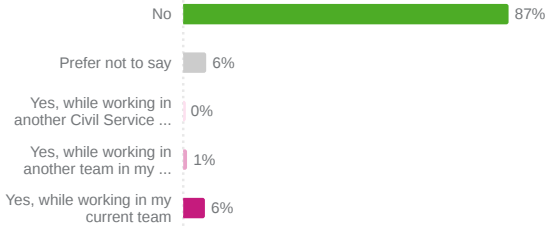

Bullying & Harassment

In 2022, 7% of Civil Servants indicated that they have been bullied and/or harassed at work in the past 12 months. This remained unchanged compared to 2021.

The graphs in this section show the figures for the organisation or team you have selected.

E03. Bullying and or harassed at work in 2022

E03. Bullied and or harassed at work 2022 vs 2021

Grounds and nature of bullying and harassment

Of those who said they had experienced bullying and/or harassment at work in the past 12 months, these are the ground(s) on which they felt it was based (Question E03A). Answer options with fewer than 10 responses will be suppressed to protect the anonymity of small groups of individuals.

Caution should be applied when comparing the two years, considering the change in the headcounts and that this question allowed multiple choices.

E03A. Count of nature of bullying and/or harassment experienced (multiple choice allowed) 2022 vs 2021

Perpetrator of bullying and harassment

Of those who said they had experienced bullying and/or harassment at work in the past 12 months, the graph below shows who bullied and or harassed them (Question E04). Answer options with fewer than 10 responses will be suppressed to protect the anonymity of small groups of individuals.

Caution should be applied when comparing the two years, considering the change in the headcounts and that this question allowed multiple choices.

E04. Count of who perpetrated the bullying and/or harassment (multiple choice allowed) 2022 vs 2021

Whether and how the incident was reported

In 2022, 39% of Civil Servants indicated that they have reported their experience of bullying and harassment (compared to 38% in 2021) while 47% did not (compared to 48% in 2020).

The graph on the right shows the findings of reporting for your organisation or team for question E05, while those below present information on how people reported their experience (q. E05A); whether they felt punished for reporting it (q. E06_D) and why did they not report the incident (q. E05B).

Please note that for questions E05A and E05B multiple choice were allowed.

E05. Reported experience of bullying and or harassment in 2022 vs 2021

E05A. How the incident was reported, if reported (count - multiple choice allowed) 2022 vs 2021

E06_D. Did you feel you were punished for reporting the incident? 2022 vs 2021

E05B. Why the incident was not reported for those who experienced bullying and or harassment (count - multiple choice allowed) 2022 vs 2021

How respondents would describe their situation now

In 2022, of those who said they had experienced bullying and/or harassment in the past 12 months, the proportion of Civil Servants who said they felt appropriate action was taken to address it is 29% (unchanged compared to 2021). 57% indicated that they feel that no action was taken (unchanged compared to 2021); and 13% preferred not to say (unchanged compared to 2021).

The graph on the right shows the proportion of responses to E06_A for the organisation or team you are selecting.

E06_A. Appropriate action was taken to address the behaviour 2022 vs 2021

In 2022, of those who said they had experienced bullying and or harassment in the past 12 months preceding the 2022 People Survey, the proportion of Civil Servants who said the behaviour has stopped at the point of completing the survey is 40%. 32% indicated the behaviour is continuing; and 28% preferred not to say.

In 2021, at Civil Service level: 40% indicated that the behaviour has stopped; 30% indicated that it has not; 27% preferred not to say.

The graph on the right shows the proportion of responses to E06_B for the organisation or team you are selecting.

E06_B. The bullying and or harassment has stopped 2022 vs 2021

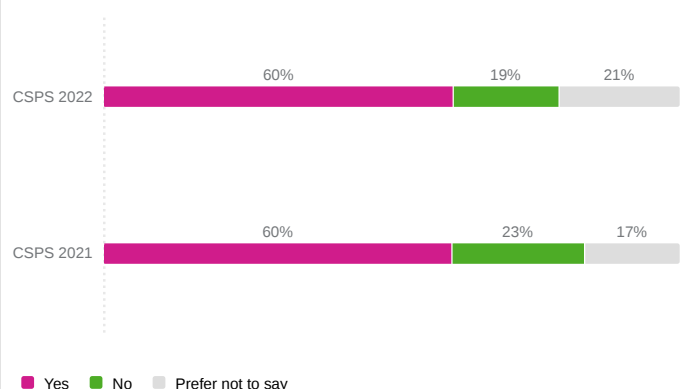

In 2022, of those who said they had experienced bullying and or harassment in the past 12 months preceding the 2021 People Survey, the proportion of Civil Servants who said the culture in their area allowed this behaviour to continue is 59%. 22% indicated that the culture in their area did not allow the behaviour to continue; and 18% preferred not to say.

In 2021, at Civil Service level: 57% indicated that the culture in their area allowed this behaviour to continue; 21% indicated that the culture in their area did not allow the behaviour to continue; and 19% preferred not to say.

The graph on the right shows the proportion of responses to E06_C for the organisation or team you are selecting.

E06_C. The culture in my area allows this behaviour to continue 2022 vs 2021

2022 Personal Wellbeing

These four questions are used by the Office for National Statistics (ONS) to monitor wellbeing across the UK, as part of their Measuring National Wellbeing Programme. One of the main benefits of collecting information in this way, is that it is based on people's views of their own individual wellbeing and takes account of what matters to people by allowing them to decide what is important when they respond to questions.

Personal wellbeing response scale

The four questions on personal wellbeing use a response scale that ranges from 0 to 10, as shown below. You'll see that the scale is reversed for question W04, where the percent 'favourable' in green is the proportion of respondents who said they have experienced low or very low levels of anxiety.

Response scale for questions W01, W02 and W03

High (7-8) or Very High (9-10) in green

Medium (5-6) in grey

Low (0-4) in pink

Response scale for questions W04

Very Low (0-2) or Low (2-3) in green

Medium (4-5) in grey

High (6-10) in pink

The percent favourable represents the proportion of respondents who reported high or very high satisfaction or happiness levels, and the proportion who reported low or very low anxiety levels.

In 2022 at Civil Service Level:

W01. 64% of respondents are satisfied with their life nowadays (unchanged compared to 2021)

W02. 69% think that the things they do in their life are worthwhile (1 percentage point less compared to 2021)

W03. 61% indicated that they felt happy yesterday (unchanged compared to 2021)

W04. 35% felt anxious yesterday (unchanged compared to 2021).

The graphs on the right show the findings for these questions for the organisation or team you have selected.

Personal Wellbeing Results 2022 vs 2021

Question	Distribution	vs 2021	AGD Attorney General's Departments (Corporate Report)	Civil Service Benchmark 2022	Action Planning
W02. Overall, to what extent do you feel that things you do in your life are worthwhile?		-1	0	+2 ^	Improve
W01. Overall, how satisfied are you with your life nowadays?		-2	0	-1	Improve
W03. Overall, how happy did you feel yesterday?		-1	0	-1	Improve
W04. Overall, how anxious did you feel yesterday?		-1	0	-3 v	Improve

2022 Mental Health & Physical Health

To help organisations and teams understand what they can do better to support those with mental and physical health problems to remain in and thrive through work, we asked two questions specifically on these topics (based on the World Health Organization's Health and Work Performance Questionnaire). Due to the Coronavirus pandemic many of us changed the frequency we work at an office or traditional workplace. This reduced our contact with others and meant working from home without office equipment so we have included an ONS recommended question on experiences of loneliness, and a question on musculoskeletal disorders.

J04B. In 2022 71% of civil servants who responded to the survey, self-reported their overall mental health to be excellent, very good or good. This was 1 percentage point lower compared to 2021.

The graph on the right shows the findings for the organisation or team you have selected.

J04B. Self-reported overall mental health 2022 vs 2021

W05. In 2022 73% of civil servants who responded to the survey self-reported their overall physical health to be excellent, very good or good. This score remained unchanged compared to 2021.

The graph on the right shows the findings for the organisation or team you have selected.

W05. Self-reported overall physical health now 2022 vs 2021

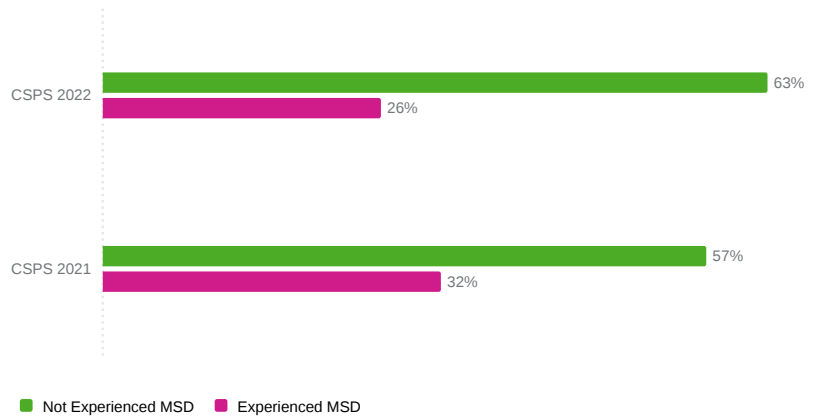

W06. In 2022 25% of civil servants self-reported that in the last year they have experienced musculoskeletal problems (MSD) compared to 34% in 2021; while 64% of them have not experienced musculoskeletal problems (MSD), compared to 57% in 2021.

The graph on the right shows the findings for the organisation or team you have selected.

Please note that those who agreed or strongly agreed with the statement 'In the last 12 months I have experienced musculoskeletal problems' have been coded as "experienced MSD". Those who disagreed or strongly disagreed have been coded as "not experienced MSD". Those who answered 'neither agree nor disagree' are not shown.

W06. Musculoskeletal problems (MSD) in the last 12 months 2022 vs 2021

W07. In 2022 civil servants self-reported that in the last year: 19% never felt lonely (compared to 20% in 2021); 33% hardly ever felt lonely (compared to 33% in 2021); 26% occasionally felt lonely (unchanged compared to 2021); 16% some of the time felt lonely (compared to 17% in 2021); 5% often or always felt lonely (unchanged compared to 2021).

The graph on the right shows the findings for the organisation or team you have selected.

W07. How often do you feel lonely? 2022 vs 2021

2022 Factors influencing wellbeing

In the Civil Service People Survey we explore three main factors that can influence people's wellbeing: a stressful working environment; a flourishing working environment, and team support.

Stressful work environments

We use something called the Proxy Stress Index to measure conditions that can contribute to stressful environments. It is based on the following Health and Safety Executive stress management standards and People Survey insights:

- **Demands** - 'I have an acceptable workload' (B33)
- **Control over work** - 'I have a choice in deciding how I do my work' (B05)
- **Support** - 'My manager motivates me to be more effective in my job' (B08) & 'I am treated with respect by the people I work with' (B26)
- **Relationships** - 'The people in my team can be relied upon to help when things get difficult in my job' (B18) & 'During the past 12 months have you experienced bullying or harassment at work?' (E03)
- **Role in organisation** - 'I have clear work objectives' (B30)
- **Change** - 'I have the opportunity to contribute my views before decisions are made that affect me' (B45)

A score of 100% tells you that respondents gave the most negative response possible to all eight questions, suggesting they are operating in a highly stressful environment. A score of 0% tells you the opposite.

The 2022 Proxy Stress Index for all Civil Servants is 27%. This increased by 1 percentage point compared to the 2021 index.

The graphs on the right show the Proxy Stress Indexes for 2022 and 2021 for the organisation or team you have selected.

Your Proxy Stress Index in 2022

Your Proxy Stress Index in 2021

Flourishing work environments

We use the PERMA Index to measure the extent to which employees are flourishing 'at work'. It is based on the work of psychologist Martin Seligman and looks at the following five dimensions of wellbeing and happiness, and People Survey insights:

- **Positive emotion** - 'Overall, how satisfied are you with your life nowadays?' (W01)
- **Meaning** - 'Overall, to what extent do you feel the things you do in your life are worthwhile?' (W02)
- **Engagement** - 'I am interested in my work' (B01)
- **Relationships** - 'The people in my team can be relied upon to help when things get difficult in my job' (B18)
- **Accomplishment** - 'My work gives me a sense of personal accomplishment' (B03)

A score of 100% tells you that respondents gave the most positive response possible to all five questions, whereas a score of 0% tells you the opposite.

The 2022 PERMA Index for all Civil Servants is 74%, unchanged compared to 2021.

The graphs on the right show the PERMA Indexes for 2022 and 2021 for the organisation or team you have selected.

2022 Your PERMA Index

2021 Your Perma Index

Team support

As an additional measure of flourishing workplace environments, we also asked respondents whether they feel their colleagues genuinely care about their wellbeing.

At Civil Service level, 77% of respondents indicated in 2022 that the people in their team genuinely care about their wellbeing; this remained unchanged compared to 2021.

The graphs on the right show the results for 2022 and 2021 for the organisation or team you have selected.

W08. The people in my team genuinely care about my wellbeing 2022 vs 2021

2022 Disability and Carers

This page includes information on the support respondents receive if they have a disability or are carers.

OFFICIAL SENSITIVE

Support for disability

J04F. In 2022 70% of Civil Service colleagues with disabilities, conditions or illnesses agreed that their manager supports them to ensure they have the workplace adjustments they need to reduce the barriers they face due to their condition(s) or illness(es). This is one percentage point higher than in 2021.

J04G. Of those colleagues that indicated to have a long-term condition:
 9% said that they do have a workplace adjustment passport that helps them to get appropriate adjustment and support;
 2% said they do have a workplace adjustment passport but that doesn't help them to get the adjustment and support needed;
 67% said that they do not have a workplace adjustment passport;
 19% said that they do not know what a workplace adjustment passport is.

The graph on the right presents the scores for the organisation or team you have selected.

Hybrid Working

H10. In 2022, across the entire Civil Service it emerged that:
 6% of respondents were workplace based;
 2% of respondents were contractual home based worker;
 89% of respondents worked hybrid;
 1% of respondents worked mobile.

The graphs on the right show the figures for the organisation or team you have selected.

H10. 2022 Working arrangements

H02A. Of those civil servants who in 2022 indicated 'hybrid approach' to question H10 it emerged that:

- 2% of respondents worked all the time at home;
- 64% of respondents worked more time at home and some of the time in a workplace;
- 18% of respondents worked equal amounts of time at home and in a workplace;
- 10% of respondents worked more time in a workplace and some of the time at home;
- <1% of respondents worked all the time in a workplace.

H02A. 2022 Hybrid Working (grouped)

H02A. 2022 Hybrid Working

Civil Servants who answered that they have mainly been working from home indicated:

H02B. 89% said that when they are working from home their colleagues are good at keeping in touch formally and informally (compared to 78% in 2021).

This question was not shown to respondents who said they have mainly been working in an office location.
The graphs on the right show the figures for the organisation or team you have selected.

B59H. Efficiency is pursued as a priority in my organisation	69%	-	+2 ^	+12 ^	Improve

2022 Taking Action

This page includes the findings in relation to belief that action has and/or will be taken as a result of completing the Civil Service People Survey, a focus on the top drivers of staff engagement, and a summary of respondents' intentions to stay or leave the organisation in the future.

OFFICIAL SENSITIVE

Did you know?...

Research suggests that teams are more likely to be engaged if time has been taken to study and understand their results, to build staff-led action plans.

It can also have an impact on how likely they are to participate in future insight gathering - people are less likely to contribute if their views are perceived to have been ignored in the past.

In 2022:

B52. 51% of respondents believe that senior managers in their organisation will take action on the results from the survey (compared to 54% in 2021);
B53. 35% of respondents indicated that where they work, they think effective action has been taken on the results of the last survey (compared to 38% in 2021).

The graph on the right shows the results for the organisation or team you have selected.

Belief that action has and/or will be taken 2022 vs 2021

Question	Distribution	vs 2021	AGD Attorney General's Departments (Corporate Report)	Civil Service Benchmark 2022	Action Planning
B52. My senior managers will act on this year's survey results		-2	+1	+2	Improve
B53. Where I work, I think effective action has been taken on the results of the last survey		-3	+1	+3	Improve

Focus Areas

While the Engagement Index tells you how engaged your employees are, it does not tell you how to improve or maintain engagement. This is where key driver analysis comes in, as this pinpoints the factors that have the strongest association with your engagement levels.

The table to the right displays the five question results that have the strongest association with the engagement index (identified through correlation analysis) for the team or group of staff you are looking at, and ranks these in order of importance.

The order of importance is determined by something called an 'r' value, or Pearson Correlation Coefficient. If you hover over the blue dot in your key drivers table, you will see the r-value. The r-value can sit anywhere between -1 and 1. A positive r-value suggests that your engagement levels appear to increase as the % favourable score for a question increases; a negative r-value suggests the opposite. The larger the blue dot, the more that question is associated with your employee engagement score.

In the table, you'll also be able to see if these areas that have improved or worsened over the past 12 months, where trend data is available.

In 2022, at Civil Service level, the correlation is as follows:

- B27. $r(343,855)=0.62$, $p<.001$
- B41. $r(343,807)=0.63$, $p<.001$
- B43. $r(344,126)=0.62$, $p<.001$
- B52. $r(344,312)=0.62$, $p<.001$
- LQC4. $r(238,597)=0.73$, $p<.001$
